Product Parameters

Item Description	Temperature Probe Type R (Pt Rh 13 %)
Temperature Measuring Range	50-1767 Degree
Paper tube length	as customer requirements
Total Length	as customer requirements
Inner Diameter	18 mm +/- 0.2 mm
Outer Diameter	31 mm +/- 0.2 mm
Thickness	6 mm
Packing	paper Box 50 pcs / box within sealed plastic cover
other	18 box / pallet on wooden pallet packed with Stretch, 900 pcs / pallet

Our Advantages

ISO9001 High-Quality Promise

From raw material procurement, production process to finished product inspection, all processes are carried out under the ISO9001 quality system to ensure stable product quality.

High Precision Advantage Technology

Fully automated production lines, the establishment of product network information system, from raw materials inspection, weight control, dimension control, formula management, the entire product manufacturing network monitoring, to avoid human errors.

High Purity Material

Use the imported high-purity thermocouple wires and auxiliary raw materials, a variety of different thermocouples, lance can be provided by us. With sophisticated production instruments and full inspection during production, it is to ensure that qualified products flow to customers.

OEM and ODM Service

Over the years, we have always taken the pursuit of customer needs and satisfaction as our goal. Compared with other companies, our disposable thermocouple has the advantages of accurate measurement, fast reaction speed and many times of use.
